-2-

- 1 Iron gate about 160 cm high, closed after 6 p.m.; not guarded
- 2 Double iron gate, about 170 cm high, with a small passage for personnel to the right
- 3 Main gate with main driveway to the ammunition depot, flanked on both sides by wooden watchtowers, about 4 meters high; no sentries to be seen
- 4 Wire mesh fence, about 170 cm high
- 5 Wooden picket fence, about 160 cm high
- 6 Two-story building, presumably quarters
- 7 Guardhouse
- 8 Three or four-story building with camouflage paint and slanting roof
- 9 Semi-underground bunker, about 9m by 9m, projecting 3 meters above the ground, covered with dead wood for camouflage against air observation
- 10 Low buildings
- 11 Watchtowers, about 4 meters high, placed at intervals of about 100 meters, some of them occupied by Soviet sentries with submachine guns
- 12 Revolving searchlights, having a diameter of 60 cm, placed about 60 cm above the ground
- 13 Arc lights with 40-watt bulbs, fixed to wooden masts, 4 or 5 meters high, spaced about 35 meters from one another
- 14 Newly cut clearing between the two fences
- 15 Wooden watchtower, 12 to 14 meters high, with windows all sides
- 16 Warning signs "Mines"
- 17 Road barrier with off-limits sign
- 18 Railroad spurs
- 19 Dead end track with buffer stop
